Save Money

By Taking Dr. Morse's Indian Root Pills
and Keeping Well.

THE cost of living still remains high, and thousands find difficulty in making ends meet. It behoves all classes of the community to practise economy in everything, and to look to their general health, to see there is no waste of time and expense by preventable sickness. Keeping the system clean by using a simple remedy to ensure the proper working of the digestive organs when they show signs of needing help, will prevent many serious illnesses. Carelessness regarding these simple requirements of Nature is costly, both to the general health and the time wasted. Keep Dr. Morse's Indian Root Pills always at hand, and take a pill or two occasionally to prevent the little troubles, and the big ones will take care of themselves. No better remedy can be had at any price. All classes of the community use them, rich and poor, male and female—professional men who do not get enough physical exercise, hard-working labourers who get too much, ladies of society and shop-girls, all find in Dr. Morse's Indian Root Pills just the remedy to keep their systems in order. They cleanse the stomach, purify the blood, tone the system and aid in the digestion and assimilation of the food. They are sold at a price within the reach of all classes.

A Martyr to Rheumatism

DR. MORSE'S INDIAN ROOT PILLS AFFORD RELIEF.

THE searching, cleansing properties of Dr. Morse's Indian Root Pills are again strongly emphasized in the statement published below of an Ashford man who suffered for years from Rheumatism. His letter is as follows :—

15, FRANCIS ROAD,
ASHFORD, KENT.

DEAR SIRS,

I can safely recommend Dr. Morse's Indian Root Pills to sufferers from Rheumatism. For years I was troubled with Rheumatic pains, but I am pleased to state that I have obtained the most beneficial effects from taking your remedy. I cannot speak too highly of the great relief they have given me, and I shall always keep a bottle of the Pills by me.

They are a wonderful medicine for cleansing the stomach, purifying the blood, and toning up the system. I have recommended Dr. Morse's Indian Root Pills to my friends.

Yours sincerely,
(Signed) R. MORTON.

Rheumatism is generally regarded as one of the most difficult ailments to cure, and invariably medicines are tried simply with the hope of temporary relief. Dr. Morse's Indian Root Pills have been wonderfully successful, not by merely affording a cessation of the pain, but by driving the poison out of the blood and restoring the joints to their original suppleness.

Uric Acid in the Blood is the primary cause of Rheumatism, and the remedy that is most successful in getting rid of this Uric Acid is the remedy that is most successful in getting rid of the Rheumatism. Taken with Comstock's Nerve and Bone Liniment, which acts through the pores of the skin on the nerves and muscles, the result is really marvellous, and the gradual relief from pain has brought forth many expressions of satisfaction from all classes of people.

A Brighter Outlook

Thanks to Dr. Morse's Indian Root Pills.

THE statement published below of the great benefit derived from taking Dr. Morse's Indian Root Pills emphasizes the marvellous properties of this remedy as a cure for that prevalent complaint, Constipation.

SHAW,

DEAR SIRs,

Near OLDHAM.

Having been a sufferer from Kidney trouble and pains in the Bowels through costiveness, I am writing to tell you of the benefits I have derived from taking Dr. Morse's Indian Root Pills. I find that they bring all waste matter from the system and leave one with a clearer brain and a brighter outlook. They do not cause a lot of pain when operating, as some pills do, and that is why they are pleasant to take.

I have no objection to your using this testimony, and am always ready to recommend your Pills to any sufferer.

Wishing you prosperity,

Yours faithfully,

(Signed) Mrs. CAMM.

THE importance of the Kidneys to the health of the human body is manifested by the fact that to them is allotted the duty of filtering from the Blood all poisonous and impure matters, and expelling them from the system through the urinary organs. If therefore they become inactive or clogged, the result is apparent. Impurities, and the decayed matters which are ever being absorbed by the Blood in its flow through the system, are not extracted, but remain in the Blood, to ferment, fester, and clog the circulation, and produce diseases. It is not alone the aching back and the insipid, tired feeling that has to be borne; it is the constant fear that greater ills will follow. Bright's Disease, Diabetes, Gravel, Gall Stones, Inflammation of the Bladder, Suppression and Retention of the Urine, etc., all result from diseases of the Kidneys. Those who have never been troubled know not the misery and suffering which those afflicted undergo. Coming troubles cast their shadows before them, and invariably Kidney diseases are preceded by marked symptoms.

Disordered Liver

Relieved by the First Dose of
DR. MORSE'S INDIAN ROOT PILLS.

THERE is no complaint that Dr. Morse's Indian Root Pills are so effective for as Torpid Liver. They are the best remedy that money, skill and science can produce for this distressing disorder, which is the cause of so much human suffering, for nine-tenths of all diseases arise from an Inactive Liver. Mr. Walpole, whose testimonial appears below, is a firm believer in the splendid efficacy of this remedy for all Liver ailments.

ELM LOW ROAD,
WISBECH, CAMBS.

DEAR SIRs,

It gives me great pleasure to tell you of the instant relief I experienced from the very first dose of Dr. Morse's Indian Root Pills.

I had suffered from a bad Liver for years, and I am very grateful to the chemist who recommended me to try your preparation. When I reached home I took two of the Pills, and the next morning was amazed and delighted to discover that the terrible pain was gone. It seemed too good to be true, and I was afraid of a recurrence, but I have taken the Pills regularly ever since, and the cure has proved a lasting one.

I am always telling my friends of the good Dr. Morse's Indian Root Pills have done me; in fact, it is no exaggeration to say that they saved my life, and I shall continue to use them as long as I live.

Yours respectfully,
(Signed) R. WALPOLE.

A Great Corrective. Not a Cure-all.

IT is not claimed that Dr. Morse's Indian Root Pills are a cure-all, but as a **CORRECTIVE** of all disorders of the Blood, Stomach, Liver, and Kidneys they are unexcelled. They purify the Blood, cleanse the Stomach, and put life into the Liver and stimulate the Kidneys to perform their proper functions, and will prevent many of the ailments so common if taken occasionally to keep the system in proper working order. In thousands of homes, Dr. Morse's Indian Root Pills are the sole Family Remedy for all general complaints. Those who have never tried them will find neighbours, friends, and relatives who can testify to the wonderful corrective influence of these Pills.

Biliousness

THERE are many causes of this complaint, but they all spring from a disordered liver, which does not properly fulfil its functions, and which causes that organ to become sluggish in its action. The bile is turned from its proper channel and enters the blood, and the person so affected is demoralized throughout his entire system.

The presence of biliary poison in the blood upsets the entire digestive system, causes dull pains and uneasiness in the right side and shoulder blade, a bitter taste in the mouth, sudden dizziness on rising, spots floating before the eyes, furred tongue, bowels loose one day and constipated the next. All or any of these symptoms may accompany the bilious condition, and while so affected life is scarcely worth living.

Dr. Morse's Indian Root Pills relieve this trouble speedily. They open the clogged-up system, purify the blood, and cleanse the stomach, causing the human mechanism to work smoothly and easily. On the appearance of bilious symptoms a dose, from two to four, of Dr. Morse's Indian Root Pills should be taken, the larger dose for a more robust grown person; the next night increase the dose one extra pill, and if the trouble is not relieved another dose should be taken. A little experience will guide the patient in the use of the pills so as to produce the best effects. People differ in the way the medicine affects them, and consequently no invariable rule can be given.

FLATULENCE.

FLATULENCE is caused by imperfect digestion. The food ferments and gases form that cause much pain and distress. A remedy is wanted that will aid in the digestion and assimilation of the food. Dr. Morse's Indian Root Pills are the perfect remedy for this complaint, and once tried will be found so satisfactory that no other remedy will be considered. They remove the cause and put the system in proper working order, and if occasionally used after a hearty meal no unpleasant effects will be felt.

Constipation & Headaches

Mrs. A. Tindale (from a photo).

Dr. Morse's Indian Root Pills still effective after twenty years' use.

A GAIN and again people write telling of the disheartening results of so-called remedies tried, and the marvellous results obtained from Dr. Morse's Indian Root Pills. The statement published below is one of this kind. It only requires a test to prove all that this lady found out. No remedy ever offered to the public has been so uniformly successful in correcting all disorders arising from the imperfect digestion of food or from Liver or Kidney complaints.

1, ALBERT ROAD,
RADCLIFFE-ON-TRENT,
NR. NOTTINGHAM.

GENTLEMEN,

With good results I have taken DR. MORSE'S INDIAN ROOT PILLS for the last 20 years. I can absolutely recommend them for constipation and sick headaches, and I am convinced there is no better pill on the market for cleansing the liver.

I shall never be without this valuable remedy and have advised several of my friends to always have a bottle by them.

Should you wish to make use of this testimony you may do so, as I am anxious that every sufferer should learn of the benefits to be derived from taking your wonderful medicine.

Gratefully yours, (Signed) MRS. A. TINDALE.

Constipation is the root of nine-tenths of the sickness of both men and women. It's a simple thing of itself, but, like many simple things, it may grow and become complicated. When the bowels are clogged, the waste matter decays and ferments and enters the Blood, and is carried to all parts of the body, producing Headaches, Biliousness, Sleeplessness, Heartburn, Loss of Appetite, Indigestion, Neuralgia, Rheumatism, and various other ailments disturbing the Heart and Nervous System, and if continued is liable to cause Inflammation of the Bowels, Liver and Kidneys.

As a family remedy for Costiveness, Dr. Morse's Indian Root Pills have a wide reputation. They are mild in their action, causing neither weakness nor sickness, and do not gripe.

To overcome Constipation take from one to four Pills regularly until the Bowels move daily, and are restored to healthy action.

On the Sick Nursing of Children

"AN OUNCE OF PREVENTION IS WORTH A POUND OF CURE," says the old saw.

The best care you can take of an ailing child, therefore, is to try not to *let* it ail. You may not be able to start your sons and daughters in life with much money, but a healthy childhood is the best start of all, and you can do your level best to ensure that.

The first step to secure this is to take common-sense precautions—you can do this without becoming a fussy mother.

The second step is to give scrupulous care if, in spite of precautions, illness does come.

PREVENTION.

A healthy home makes a healthy child. In overcrowded cities it is difficult to keep home a healthy place, but for the children's sake the mother will do her best.

CLEANLINESS and FRESH AIR are the two essentials of a healthy home. Dirt breeds disease—when Dirt comes into the home Health packs up and departs. Soap and water are the best—and the cheapest—weapons with which to fight disease.

FRESH AIR is not easy to get in the city. But get all you *can* into your home. Doors and windows are made to open, not to be kept tightly shut. A current of air blowing through a room, if only for a few minutes, helps to carry away the impurities and gives childish lungs something fresh to breathe. If you cover a candle with a glass jar you will see it go out for lack of air. A child's vitality dwindles for the same reason.

Sick Nursing

SLEEP. Even if the home is kept as healthy as conditions allow, a child will not thrive without sufficient sleep. Children running about the street late at night are borrowing from Nature and will have to pay back their debt in later years.

DIET. Cost makes this a harassing problem for the overburdened mother. But the simplest foods are often the cheapest, and the simpler the diet the better. A child needs a certain amount of fat—even in the simple form of dripping or bacon fat; of sugar—in syrup or jam or fruit; of fresh milk and fresh vegetables and if possible an egg or lean meat. Pickles and strongly flavoured tinned goods are enough to ruin childish digestions. Improper diet is one of the causes of Rickets.

CLOTHING. Here cleanliness comes in again. For the rest, the mother may have to do the best she can, but she should keep an eye on boot soles. Dry feet and plenty of outdoor exercise will keep colds at bay better than muffling up.

TEETH. Bad teeth are the cause of many ailments. It is more important for a child to keep his teeth clean than to have a spotless face. A makeshift toothbrush can be made from the tail end of a match, slit and chewed to make a little brush, with which the teeth and the spaces between can be cleansed after a meal. Decayed teeth must not be neglected and the *only* cure for toothache is a visit to the dentist.

EYES require professional care. Defective sight or inflammation account for headache and for many other complaints. Watch your child's eyes and **BREATHING**: if he cannot breathe through his nose the adenoids may need attention.

REGULARITY should be the keynote of your home, as far as possible: regular habits and regular hours for sleep and meals.

of Children

CARE.

In spite of these precautions childish ailments may yet step in. Infection spreads from others, or the mother is at work and cannot always be at hand. Then common sense and promptness may head off an illness and save calling in a doctor. No risks should be taken, however, and no experiments tried.

Dr. Morse's Indian Root Pills are a safe, and reliable, standby. In stomach complaints, biliousness, feverish colds, and some forms of cough, a dose, suitable to age, to clear the system, followed by quiet, warmth, and a light diet, will frequently be all the "cure" needed.

Linseed Oil and Limewater, bought ready mixed, should be kept in readiness and immediately applied in case of burns or scalds, where the skin is not broken. The place should then be covered to exclude air.

Comstock's "Nerve and Bone" Liniment makes a good lubricant and can be well rubbed in for rheumatism and "growing pains," chest colds, etc.

A few drops of Ipecacuanha on a lump of sugar will relieve a bad bronchial cough.

Earache can be relieved by dropping in a little warm olive oil.

NURSING HINTS.

In all cases of real illness it is highly important to follow the doctor's instructions exactly.

Keep the medicine out of reach of the child who is ill *and of the other children.*

Never discuss symptoms before a sick child, especially a nervous sick child. Conceal your anxiety and treat everything as a matter of course. Be kind and firm but not fussy.

THE SICK ROOM. You may not have a cheerful, airy room for your patients, but try to make it as cheerful and airy as you *can*. Turn the bed sideways—or head on—to the window so that as much light as possible can be let in without trying the sick child's eyes.

Sick Nursing of Children

In sickness, as in the prevention of sickness, **CLEANLINESS** is the great thing. Clean bedclothes, clean nightgowns, and regular sponging will double your patient's comfort, reduce fever and irritation, and help to prevent bed sores. A clean room, too, is a necessity. And *clean air* must not be forgotten. A window should be opened top *and* bottom; the stale, hot air rises and goes out by the top as the fresh air comes in at the bottom to replace it. The door can be opened for a few minutes at a time as well, the patient being protected from draughts by a screen—a makeshift screen of a clothes-horse or a suspended line, covered with a sheet, will do quite well. Sanitas or other disinfectant sprinkled about will help to keep the room fresh, and in very hot weather a damp towel flapped about cools and stirs the air. In bronchitis cases, of course, the patient must be more protected from the outer air.

Bed sores must be prevented at all costs. Cleanliness, frequent bathing with soap and water, rubbing with methylated spirit and dusting with powder should keep them at bay.

DIET. The doctor will generally give his own instructions, but as a rule provide light, easily digested food during convalescence. Remember the appetite will need tempting, and a clean, nicely served meal will go down best. A touch of colour or a little novelty will often induce an appetite where none was before. Don't discuss meals before the patient—children love surprises—and as soon as they are finished with take the remains right away.

The home nurse has herself to consider as well as her little patient. To keep herself fit is a necessity. She must try to get as much rest, fresh air, and nourishing food as her exacting duties will allow. "Don't worry" is a motto easier to quote than to carry out; but the attempt should be made.

Ulcerated Stomach

Dr. Morse's Indian Root Pills
saved her life.

WATER LANE,
CASTLE BYTHAM,

GENTLEMEN, Nr. GRANTHAM.

I should like to let you know the benefits I have received from taking your Dr. Morse's Indian Root Pills; in fact, it is not saying too much to state that they saved my life.

I suffered terribly from ulcerated stomach. I could not keep my food down, not even a drop of milk, and got so bad that my daughter had to leave her situation to look after the home.

On seeing one of your advertisements I was determined to try a bottle of Dr. Morse's Indian Root Pills, and after taking them for three or four weeks I began to feel better. I am now entirely cured and always keep the remedy by me.

I felt it was my duty to write this letter to enable you to let the public know the good they have done me. A medicine of this description cannot be too widely known.

Yours thankfully,

(Signed) Mrs. C. MAYES.

The above testimonial, written in a simple, convincing manner, is only one among many of those received from people who have derived the greatest benefit from taking Dr. Morse's Indian Root Pills. Many of these people had tried other so-called remedies until they had despaired of getting any benefit whatever. No other medicine, whether it be pill or tablet, liquid or solid, has ever been so universally and successfully used by all classes of the community, both rich and poor. They are not advertised as a great "Cure-All," but as a safe, sure and reliable remedy for the little ills of life, for which they are unexcelled.

Mrs. C. Mayes (from a photo)

The Blood is the Life of the Flesh

Dr. Morse's Indian Root Pills. What they are and what they do. Their Four Principal Ingredients.

IT is an established fact that all diseases spring from one source, namely, Impurity of the Blood. Therefore, our strength, health, and life depend upon the vital fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased, thus causing pains, sickness, and distress of every name; our strength is exhausted; and if Nature is not assisted in throwing off the stagnant humours, the blood will become choked, and cease to act, and thus our light of life will be extinguished. How important, then, that we should keep the various passages of the body free and open, and if assistance is necessary, to have at hand that invaluable remedy, Dr. Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountain cliffs in Nature's garden, for the health and recovery of diseased man.

One of the roots from which these Pills are made is a **SUDORIFIC**, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within.

The second is a plant which is an **EXPECTORANT** that opens and unclogs the passages to the lungs, and thus in a soothing manner performs its duty by throwing off the phlegm and other humours from the lungs by copious spitting.

The third is **DIURETIC**, which gives ease and double strength to the Kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is thrown out bountifully by the urinary or water passages, and which could not have been discharged in any other way.

The fourth is a **CATHARTIC**, and accompanies the other properties of the Pills while engaged in purifying the blood, and the coarser particles of impurity which cannot pass by the other outlets are thus taken up and conveyed off in large quantities by the bowels.

From the foregoing it is shown that Dr. Morse's Indian Root Pills not only enter the stomach but become united with the blood, for they find their way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain are driven from the system, for they cannot remain when the body becomes pure and clean.

Heartburn

Marvellous Benefits Derived from Dr. Morse's Indian Root Pills.

THERE is nothing more gratifying to the Proprietors of Dr. Morse's Indian Root Pills than to have the strong statements of responsible and respectable people telling of the benefits derived from the use of their Pills. The statement published below is one voluntarily given by a resident on the West Coast of Africa, who praises this remedy for the speedy results obtained. In his case Dr. Morse's Indian Root Pills did all that was claimed for them, and they are now always kept in the house.

CEMETERY ROAD,

SALTPOND, GOLD COAST.

DEAR SIRS,

I am writing this in order that you may know what I owe to your Dr. Morse's Indian Root Pills. I was tormented with Heartburn, and suffered acutely from Ulcerated Stomach; I had no rest from pain, night or day, until I used your Pills. I read one of your advertisements, and decided to give your remedy a trial; relief was immediate, for the first dose eased the pain. My father was astonished at the result, and I could scarcely believe it myself. I have taken the Pills regularly for a few weeks, and am now entirely free from both complaints. It is, indeed, a marvellous cure, and I wish you to make use of this letter, as I am anxious that other sufferers should learn of the great benefits I have received from taking your Dr. Morse's Indian Root Pills. I shall never be without them, and shall recommend them wherever I go. I cannot find words to express my gratitude to you.

Yours very thankfully,

(Signed) JOHN WHYTE.

A Little Common Sense.

IN using any kind of medicine a little common sense is always necessary. Dr. Morse's Indian Root Pills are compounded to meet the general requirements of man, woman and child, both weak and strong, and in prescribing doses of from one to four pills, the actual number necessary in each case must be determined according to the age and condition of the patient. A dose, however, should be sufficient to move the bowels at least twice, and although relief may be obtained at once, it is always advisable to take a Pill or two on the following night. In some cases the first dose may cause a little pain and sickness, which will not recur.

A Household Remedy

THE STANDARD FAMILY MEDICINE.

THROUGHOUT Great Britain Dr. Morse's Indian Root Pills are rapidly becoming a household remedy, and the antidote for all general ailments. In thousands of homes the little amber bottle is the sole medicine chest, for whatever complaint, the bowels must be kept free, and the process by which the blood is purified must be stimulated to throw off the poisons in the blood, which is the cause of all disease. The many wonderful cures effected by Dr. Morse's Indian Root Pills have awakened the interest of all classes of the community to the merits of these Pills. Years ago, pills were the medicine of the poor only. To-day the efficacy of Dr. Morse's Indian Root Pills to overcome the common ailments of mankind has convinced not only the working section of the population, but the more wealthy, professional and independent classes that Dr. Morse's Indian Root Pills are the best family medicine. Dr. Morse's Indian Root Pills have come to stay. They are an efficient, reliable and safe remedy, placed on the market at a price within the reach of all. The Pills, being sugar-coated, are pleasant to take, and retain their full medicinal properties. They are packed in amber-coloured bottles—not in cheap wooden or pasteboard boxes—and are thus always fresh and clean, impervious to moisture, unaffected by climatic conditions, and do not deteriorate by keeping as all liquid medicines do.

STATEMENT BY THE PROPRIETORS OF DR. MORSE'S INDIAN ROOT PILLS.

Dr. Morse's Indian Root Pills are a purely vegetable sugar-coated medicinal preparation, carefully compounded by experts, and are manufactured on the premises under the direct supervision of the proprietors.

The care taken in the production of these Pills is illustrated by the manner in which they are packed. Instead of being put up in cheap wooden boxes—that absorb poisonous and other substances—they are packed in glass bottles, at a cost of five or six times that of wooden boxes. The extra cost is more than made up in the satisfaction of knowing that the Pills reach the public just as they left the laboratory, unaffected by moisture or climatic changes, and free from contamination by contact with any foreign matter.

Comstock's "Dead Shot" Worm Pellets

**A Safe, Sure, and Reliable Remedy for the Eradication
of Worms in Children and Adults.**

COMSTOCK'S "Dead Shot" Worm Pellets are a purely vegetable preparation, compounded on a scientific principle for the eradication of worms which infest the intestines. They contain specific properties which destroy the worms, but cause no injury to the stomach or bowels, and do not weaken the system. The Pellets are prepared in the form of a confection, and have no disagreeable taste or smell, but on the contrary inspire children to take them as they would an ordinary lozenge. The symptoms of the presence of worms are very pronounced, but should the indications prove incorrect, this remedy will do no harm whatever. This complaint is most prevalent in children, although adults are frequently troubled with them.

THE LONG ROUND WORM is the commonest kind of worm from which mankind suffers, and is of a light transparent colour, resembling the ordinary ground worm except that the extremities are more sharply pointed than the ground worm.

The first thing to do is to rid the system of the worms, and Comstock's "Dead Shot" Worm Pellets, taken according to directions, are an infallible remedy for the thorough eradication of the Long Round Worm—the common enemy of the child, the youth, the middle-aged, and the aged. After careful inspection of stools to see if treatment has been effective, a light nourishing diet, out-of-door exercise, and, if possible, a change of air, will greatly improve the general health.

COMSTOCK'S "DEAD SHOT" WORM PELLETS

are for sale by all Chemists and Stores at 3 - per packet, and if unable to obtain locally will be mailed post free on receipt of price.

Prepared only by

The W. H. COMSTOCK Co. Ltd., 21, Farringdon Avenue, London, E.C.4

General Directions

DR. MORSE'S INDIAN ROOT PILLS should be taken immediately before retiring, or may be taken in the morning an hour or two before breakfast, in which case a warm drink will cause them to act briskly. As the constitution of no two persons is exactly alike, no fixed rule can be given for the number of Pills to be taken at a time. The nature of the case and experience must be the guide. If the action of the Pills is too strong, reduce the dose, if too weak, increase it.

For Adults.—The usual dose is from two to four, which should move the bowels two or three times, so that the system is thoroughly cleansed. Very delicate persons should begin with but two, and increase as the nature of the case may require.

For Children.—From three months to one year old, half a pill, dissolved in a little water and sweetened, to be taken every night. From one to four years, one pill. Above that age, from one to two pills.

It should be borne in mind that the pills must be taken in such quantities as will operate two or three times on the bowels, otherwise you will not receive the full benefit. As they are purely vegetable, they may be taken, not only without danger, but with perfect safety, and great benefit may be realized in every case.

Dr. Morse's Indian Root Pills may be administered to children in the form of a powder by crushing the pill, and placing it in a spoonful of jam. This method is often resorted to by adults who experience some difficulty in swallowing a solid.

CAUTION. The W. H. Comstock Co., Ltd., are the Sole Proprietors and Manufacturers of DR. MORSE'S INDIAN ROOT PILLS, and they will prosecute to the full extent of the law any counterfeit or infringement of their registered trade mark or label. The Pills are packed in amber-coloured bottles with the full name shown thereon, and are wrapped in a black label bearing the signature of W. H. COMSTOCK.

THE TEST OF TIME.

FOR nearly a century DR. MORSE'S INDIAN ROOT PILLS have been sold in the United States of America, Canada, the West Indies, and South America, and at the present time have a larger sale in these countries than ever before in their history. About 28 years ago they were introduced into Australia and New Zealand, and immediately commanded the largest sale of any medicine in those colonies. (Last year over one million bottles were sold in Australasia alone.) More recently they were introduced to the British Public, and as they gradually became better known there has been a constantly increasing demand, due solely to their intrinsic merit and medicinal value. Their name and reputation stand higher in public estimation than all others, and their ever-increasing sales bear testimony to their merit and popularity. Thousands of people are taking them, and neighbours, friends and relations all testify to their marvellous cleansing and healing properties.

Dr. Morse's Indian Root Pills and the Comstock Medicines are to be obtained from all the leading Chemists and Stores. If unable to be procured where you reside, they will be sent by mail on receipt of the following prices:—

Dr. Morse's Indian Root Pills, 1/3 per bottle.

Comstock's "Dead Shot" Worm Pellets, 3/- per packet.

Comstock's Nerve and Bone Liniment, 3/- per bottle.
